Dear Dave,

We just purchased our first Food Court Express. We took advantage of the Vistar offer. Which gave us \$ 1000.00 off the purchase! We have been very happy with the concept of food & ice cream in one. It gave our account the flexibility to get more offerings within one machine. The account we placed it at has over 700 employees and we were able to work with them, and give them selections they wanted! The customers like watching the robotic arm in action. It gives them the satisfaction, that they are getting the newest technology within the industry.

As we spoke recently we are looking at our 2nd & 3rd machines. We hope to pick up new accounts by offering them this great product! The next time you are in Chicago, call me and I'll treat you to a Blue Bunny NASCAR bar from one of our Food Court Express Machines!

Thanks for including us,

Sincerely,

**Jeff Shapiro
